Call for Proposals - 2022 Family Medicine (FAFM & CFPC) Temerty Innovation Grant

Overview:

Value: \$100,000

Number of grants available: One Grant

Duration: One year

Application Deadline: **September 30, 2022 (Friday @ 5pm)**

Application form: <https://lmp.forms-db.com/view.php?id=305280>

Grant Objectives:

- The 2022 Family Medicine (FAFM & CFPC) – Temerty Innovation Grant is intended to identify high-risk, high-reward research with the potential to transform family medicine in the next 20 years.
- To encourage researchers to transcend boundaries by using diverse datasets and new technologies to improve family medicine efficiency or patient outcomes.
- To simulate the creation of a collaborative community focused on the innovation and implementation of AI in family medicine.

Eligibility Criteria:

Applicants must meet the following criteria:

- Primary Applicant/Principal Investigator (PI) must have a T-CAIREM affiliation, hold a University of Toronto faculty appointment, and be eligible to hold grant funding.

- Either the Primary Applicant or one of the co-PIs must be a member of the CFPC.
- Priority will be given to interdisciplinary project teams.
- Projects that utilize a variety of resources, novel data integrations and/or innovative methodologies are encouraged.
- An individual can only submit one application as a Primary Applicant. However, that same individual can be a co-investigator or team member on multiple applications.

About Sponsor:

[The Foundation for Advancing Family Medicine \(FAFM\)](#) is dedicated to advancing the discipline of family medicine through research and education initiatives. The FAFM's activities are aligned with the strategic priorities of the College of Family Physicians of Canada (CFPC), and include grants, scholarships, as well as initiatives to support the training and continuing professional development of medical students, family medicine residents, and family physicians.

[The CFPC](#) is the standard-setting organization for family medicine in Canada, representing more than 40,000 members across the country. The College establishes the standards for family medicine education and certification, supports family physicians, champions advocacy and research and honours the patient-physician relationship as being core to the profession.

[T-CAIREM](#) is an interdepartmental centre at the Temerty Faculty of Medicine that serves as a focal point for collaboration among healthcare providers, trainees, researchers, computer scientists, engineers, and industry. Our goal is to transform health through AI.
