Let's Talk International Partnerships Fireside Chat – Research Partnership Security - October 28, 2021

October 7, 2021 • Reply to [Abigail Warnock](#)

The Office of the Vice-President International's [October Fireside Chat](#) will focus on Research Partnership Security.

With recent developments by the Federal and Provincial governments on research partnership security, U of T has released its own internal processes and checklists to help faculty manage potential risks in their research partnerships with international academic and corporate institutions.

This Fireside Chat, on **Oct. 28 from 12:00pm-1:00pm**, will provide an overview of U of T's new internal processes and provide attendees with the opportunity to ask questions about how best to engage in this new process, and to enter into new and current partnerships with "eyes wide open".

Workshop registration: <https://cris.eve.utoronto.ca/home/events/1843>

Check the [series page](#) for future dates and topics.

If you've missed any past sessions of *International Partnerships Fireside Chats*, view recordings [here](#).
