Our learners became more involved with their communities by volunteering their time to activities and initiatives that support the community. Students packed food for the homeless at Good Shepherd, revitalized the Green Roof at YMCA, and investigated a case study about the social determinants of health.

**Location**: YMCA & Good Shepherd

**Community Impact Day**

**SUMMER 2024 Weekly Bulletin**

**WEEK 3: July 15 - 19**

**Physiotherapy Day**

**Location**: Rehabilitation Sciences Building
**Presenters**: Rehabilitation Sciences Institute

At the Rehabilitation Sciences Building, professional and student physiotherapists hosted interactive sessions. Our learners expanded their knowledge on the muscles and bones of the body in friendly competition. Students also became more aware of the difficulties faced by patients during rehabilitation, as they learned how to use crunches and knee braces. During a career panel and Q&A session, students gained more insight into the career pathways available in physiotherapy.

**Women’s College Hospital Visit**

**Location**: Women’s College Hospital

**Physiotherapy Day**

**Presenters**: Isabelle Choon-Kon-Yun, Joanna Dziewaltowska-Gintowt, Dr. Mira Maximos, Shayna Sharma, Dr. Melinda Wu

A three-part event including a panel talk and Q&A, an archival presentation, and a tour of Women’s College Hospital allowed learners to see the past, present, and future of healthcare. A career panel consisting of professionals and researchers offered a glimpse into the journeys of women in medicine, and a presentation on the history of Women’s College Hospital allowed students to appreciate its historical significance.

**UOFT Admissions**

**Location**: Medical Sciences Building
**Presenters**: UOFT Undergraduate, Graduate, and Professional Programs

With representatives from over 15 different undergraduate, graduate, and professional programs in various fields, our learners had the opportunity to network with professionals and learn about potential career paths.

We would like to extend our thanks to The Temerty Faculty of Medicine (MD, Immunology, Nutritional Sciences, Institute of Medical Science, Medical Biophysics, Molecular Genetics, Occupational Therapy, Physiotherapy, Rehabilitation, Physiological Psychology, Physical Medicine, Medical Radiation Science, Neurosurgery, Obstetrics and Gynecology, Pediatrics, Orthopedics, Ophthalmology, Otolaryngology, Pathology and Laboratory Medicine, Pharmacology, Pharmacy, Preventive Medicine, Public Health, Radiological Science, and Surgery), the Faculty of Medicine, the Faculty of Nursing, and the Faculty of Kinesiology and Physical Education.
